Lace Collar and Cuff Sets 35c. and 75c. per set
Very pretty sets of fine Ecru lace. They add newness to your old frock.

Lacombe Again Makes History

The Lacombe district will become the first "Pure Bred Area" if the gentlemen representing it at a meeting held in Spruceville Hall, Lacombe, are carried out. This meeting, sponsored by the Board of Trade and Agricultural Society was attended by some fifty farmers who were one hundred per cent in favor of the establishment of such an area.

Mr. B. G. Carlyle, Live Stock Commissioner for the Province was the principal speaker of the evening and discussed the value of good live stock under present conditions and outlined just what the establishment of such an area would involve as well as the Government's policy with respect to assistance in purchasing pure bred sires.

The Provincial Government will finance the purchase of approved sires up to seventy-five per cent of their purchase price to be repaid in three annual payments by the purchaser at seven per cent interest.

Mr. Henry B. Trane, President of the Agricultural Society explained that that organization and the Board of Trade called this meeting as a result of a popular demand for further information and that these Societies were not attempting to put anything over on the public.

A number of farmers spoke in favor of the project. Mr. R. H. Reed, Superintendent of the Experimental Station, Lacombe, explained how successful the scheme had proven in other provinces where it had been tried. Clarence F. Dameron, Auctioneer, told how much higher prices cattle from pure bred sires sold for at auction sales over scrub stock.

After considerable discussion, Mr. G. E. DeLong, President of the Board of Trade, who acted as chairman, called for a show of hands for and against the subject. Those present voted one hundred per cent in favor of creating the Municipal District of Crown, No. 399 a "Pure Bred Area."

Laymen's Convention

Lacombe Presbytery. Delegates were present from many outside points at the afternoon session of the Laymen's convention of the Lacombe Presbytery of the United Church, held on Thursday, Nov. 14th.

Dr. E. M. Sharpe, officiated as Chairman, and addresses were given by Mr. W. J. Leland, of Calgary and Dr. Hugh Dobson of Vancouver. Difficulties of the local churches were dealt with as well as many other problems.

Following this session a banquet was served to delegates and visitors in the Church Hall, by members of the local Rebekah Lodge. The tables were tastefully decorated in pink and green and the repast was enjoyed by all.

At the conclusion Dr. P. L. Backus of Red Deer, in a splendid address regaled his hearers with some of his impressions of the General Conference, during which he gave high tribute to Dr. Gunn, who gave his very life to the United Church and also to the new Moderator, Dr. Oliver of Saskatoon, who is a worthy successor to Dr. Gunn.

Speaking of Foreign Mission and their attendant problems, Dr. Backus said, "If we are not prepared to accept the challenge that is being presented to us by these great nations across the Pacific by giving to them a helping hand, we shall soon find ourselves in that unenviable position of finding them our masters and we their servants."

Eight redemptive homes are being supported by Home Missions, of which the one in Calgary has taken care of 151 girls, 136 of whom were Canadians. Only 30 p.c. of the Maintenance and Extension fund is spent abroad, the remaining 70 p.c. being spent on the home fields. The spirit of unity is abroad as evidenced by statements made by representatives of the Evangelical Church and the Anglican Church at the Conference.

Dr. Hugh Dobson, in an inspiring address felt that perhaps no one saw more of the seamy side of life than he did, as the nature of his work brought him in contact with the worst of human nature. He also extended a tribute of praise to Dr. Backus and Mr. Leland, who from their busy lives devoted so much time to this meeting in Church work. Dr. Dobson mentioned the fact that for every

\$1.00 raised by Alberta for Mission Work, at least \$1.50 was spent in the Province. Emphasis was also laid upon the fact that Alberta is now spending more on alcoholic liquor than even Quebec, thus having the highest expenditure in the Dominion in that respect, and the speaker asked: "Are Christians not willing to spend as much in an effort to see pain, as the drinking men are to spend it in liquor. He urged the people to get behind the movement to eliminate the beer parlors and divert this money to legitimate channels of trade and commerce, which would ease the present situation of hard times."

Dr. Dobson predicts days of strife and storm ahead for the Church, but feels that the young people will take up the challenge and carry the banner through to victory. One reason there is difficulty with young people is because the older ones are not setting them a clean enough, pure enough and courageous enough example.

All problems, said the speaker, even that of the low price of wheat, is primarily a religious problem, and explained indignantly how this is so. Even the marriage problem with its note of "Companionate marriage," which is really quite old, having been tried out in Rome in the ancient days can readily be solved if love exists, and referred his listeners to the 13th chapter of Corinthians. Love as spoken of in that chapter is not a feeling or an emotion, but a control. Dr. E. M. Sharpe is moving a vote of thanks to the speakers, felt that it was only right that spiritual things should keep pace with scientific ventures. This was seconded by Mr. Wright.

News From Rimby

Synopsis of Minutes of Meeting Saturday, November 14th, 1930. M.D. BLINDMAN NO. 430. The ninth meeting of the council for the year was called to order at 2 p.m. in the High School at Rimby with all councillors present. The minutes of the previous meeting were read and approved.

Statement, Sect. 82 M.D. Act: Balances—Gen. account \$504.88 School \$121.39; Hall \$40.50. Divisional Balances: Division 1, \$504.88; Division 2, \$165.62; Division 3, \$77.38; Division 4, \$309.05; Division 5, \$29.30.

Hospital: Dan North account tabled till next meeting for further information. Weeds—Account of Anton Kilde for weed killing, \$8.00 allowed.

Reports and correspondence noted as follows: Letter received by Mr. Sinclair of the S.B.S., Calgary: Economic situation in the province and those receiving assistance from the Municipal District by Inspector Davidson from the Liquor Control Board, and the Alberta Hotel Association.

Inspector Altmeyer, District Engineer, Dept. of Public Works, favorable comment on road conditions in this M.D., and looking for still further improvement by the appointment of a road supervisor for 1931.

Mr. Stewart suggested bridges for 1931 at following locations: Bridge No. 8530 at NW Cor. of SW 27-44-2-5th near P. R. Chubb. Bridge No. 7231 at SE Cor. of SE 27-2-5th near E. B. Sletty. Bridge 7889 at SW Cor. of NW 34-42-2-5th, near Bert Bunney. Bridge No. 7949 at West Co. of 27-43-2-5th near Blindman river, 80 lb. Steel.

Bridge No. 2107 at West Co. of SW 30-42-2-5th, near W. J. Molyneux.

Decision re caveat list left till after convention. Secretary was instructed to get prices on material and report next meeting.

C.P.R. report removal of fence from road allowance West of 2-42-2-5th.

Blindman Valley and Bluff Centre report health inspector Williams' suggestions have been complied with.

Inventory of tools was submitted by each councillor with valuations. Cr. D. A. Whitesell, stated that owing to other plans, it was his intention to resign as councillor in division two, said resignation to take effect as at Feb. 28th next so as not to necessitate a special election preliminary to the usual time for holding same. As the other councillors were unable to shake him from his purpose, on motion his resignation was respectfully accepted. He had served seven years as councillor.

D. A. Stuart was appointed deputy returning officer for Div. two (2), and the poll was established at Rimby.

The gravel-pit situation was discussed at length, and it was decided to negotiate for the purchase of two (2) acres more or less on East side of NE 8-43-2-5th, O. A. Wagner. Test holes had been put down by P. E. McPherson, engineer of the Dept. of Public Works which showed that the gravel was about 20 to 25 ft. deep. Only two acres of actual gravel. Secretary was given authority to proceed with the purchase in all details.

A motion was passed to accept the offer of \$7.00 per acre for land taken for gravel diversion from the C.P.R. on N 12-25-44-28-4th. Secretary was instructed on motion to pick up the grade note \$665.00 on Dec. 7th and to remit the balance of \$662.38 due to hall board. An order was issued to secretary

to correspond with Attorney-General's Department renewing our request and to remind them of their promise to have a decision of the Provincial Police obtained at Rimby.

A motion was passed that owing to insufficient improvement on SW-8-44-2-5, the wild land tax be confirmed. Bills were passed on General account \$40.00, Div. 1, \$211.56; Div. 2, \$22.10; Div. 3, \$12.50; Div. 4, \$14.20; Div. 5 \$17.60; Div. 6 \$9.50.

The Reeve read Inspector Renshaw's report as at August 17th, showing that the affairs of the district, both from an administrative and financial point of view were in a very satisfactory condition.

The date of the next meeting was set for Dec. 6th, then council adjourned.

W. A. Saunders, Secy.-Treas.

Wheat Pool Sees One Way Out

The following resolution was submitted to the U.P.A. convention for discussion and approval in connection with this matter yesterday at Calgary:

"Whereas, the Wheat Pool in the three western provinces cannot function efficiently owing to high interest charged by the banks on loans, and

"Whereas, the pool members cannot meet their obligations with the small initial payments for their wheat, and

"Whereas the non-pool farmers are selling their wheat far below cost of production and

"Whereas the prices on all farm machinery and on all other things which the farmers must buy are too high in proportion to wheat prices;

"Therefore be it resolved that the Dominion Government be requested to establish a wheat board, and purchase all wheat from the Canadian farmers at \$1 per bushel at the elevator nearest to the farmer, and sell it at the market price and that any deficit be covered by increased income tax or by any other source of taxation."

"Whereas the pool members cannot meet their obligations with the small initial payments for their wheat, and

"Whereas the non-pool farmers are selling their wheat far below cost of production and

"Whereas the prices on all farm machinery and on all other things which the farmers must buy are too high in proportion to wheat prices;

"Therefore be it resolved that the Dominion Government be requested to establish a wheat board, and purchase all wheat from the Canadian farmers at \$1 per bushel at the elevator nearest to the farmer, and sell it at the market price and that any deficit be covered by increased income tax or by any other source of taxation."

Refreshments Climax The Children's Party

BY EDWINA NULAN
Director of Home Service, General Electric Refrigeration Department
NOT every mother has learned the secret of running a children's party smoothly—supervising the games, keeping the little guests interested and happy in wholesome fun—and then, as a climax, bringing on the refreshments, which always are uppermost in the minds of youngsters.

Mother must be on hand to guide the games, but, she must have good things to eat. For often, she is forced to leave the children without leadership in order to prepare the refreshments. Then, the youngsters may fall into aimless rough-housing and the party may become overly boisterous.

Preparing the party refreshments the day before permits the mother to keep her hand in the game, because she will have everything ready to serve at a moment's notice. She can make chili jellies, freeze salads and desserts the day before and they will be all ready to lift out and serve at the refreshment hour.

As a suggestion for such a menu she could have:
Jellied Chicken
Fancy-shopped Sandwiches
Hot Chocolate with Whipped Cream
Vanilla Ice-Cream Sandwiches
The jellied chicken she makes the day before and chills in the refrigerator. Garnished with hard-cooked egg cut in fancy shapes, it looks quite polished in its nest of lettuce and watercress. The ice-cream sandwiches, also, can be made the day before. Vanilla mousse for this popular dessert can be bought and kept hard in the electric refrigerator tray, or it can be made easily. The sandwiches can be made in the morning, covered with a damp cloth and kept fresh in the electric refrigerator. If the party is held in summertime, a milk shake or frost can be prepared the day before and kept in the refrigerator. It sounds easy and it really is easy.

ready to lift out and serve at the refreshment hour.

YOU wonder how Firestone could build better tires—well here they are—more tread rubber—more non-skid life—think of it! Deeper, quicker self-cleaning—more safety on the road—more rubber between the piles, stronger, tougher, safer tires than ever before.

These rugged, longer-wearing Firestone tires cost no more than the ordinary. Only in them do you receive the extra benefits of the Gun-Dipping process which eliminates internal friction and heat—the greatest enemy to the tire. Specify Firestone Gun-Dipped tires on your new car or make your present car a better one with Firestones. See your nearest Firestone Dealer.

We have on hand some good milk cows, fresh and springing. Wanted Feed Barley, Out sheaves and oat straw. Some bulls to sell.
McKenzie Bros.

An ACKNOWLEDGMENT and an INVITATION

THE Bank of Montreal, now in its 114th year, regards it as a great privilege to have co-operated over so long a period in the development of Canadian business.

The Bank has kept pace with the growth of Canada and in each of the hundreds of communities where it is represented it has been an important factor in local progress.

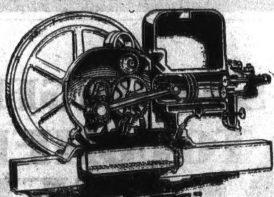

If we have had the privilege of serving you in the past we are glad, and, if we have not had that opportunity we cordially place our facilities at your disposal—at whichever of our offices is most convenient to you.

BANK OF MONTREAL

TOTAL ASSETS IN EXCESS OF \$800,000,000

Lacombe Branch: A. I. B. BELCHER, Manager.

It Puts an End to Oiling Worries

This "cut-away" view was prepared just to show you how efficiently the John Deere oils itself. That self-oiling feature is one of the big reasons for the steady power and long life of the

John Deere Type E Engine

The simple splash oiling system insures the thorough lubrication of every working part. Clean oil is kept circulating in every important working part by being fed by a spray of oil while the engine is in operation. Oil is stopped automatically when the engine is stopped—no oil is wasted. Easy, easily forgotten eight-feed oil cups are done away with and friction,

one of the greatest of power thieves, is reduced to a minimum by this positive automatic oiling system. Come in and have us show you how efficiently the John Deere oils itself. Examine the simplicity of design and the sturdiness of its parts—the John Deere engine will do its work steadily and efficiently and will stand up under severe conditions on your farm.

How to Reduce Varicose Veins

Rub Gently and Upward Toward the Heart as Blood in Veins Flows That Way

Many people have become despondent because they have been led to believe there is no remedy that will reduce swollen veins and bursae. If you will get a two-ounce original bottle of Moore's Emerald Oil (full strength) at any first-class druggist and apply it night and morning as directed, you will notice an improvement which will continue until the veins and bursae are reduced to normal. Moore's Emerald Oil is a harmless, yet most powerful germicide, and two ounces last a very long time. Indeed, so powerful is Emerald Oil that old chronic cases of piles are often entirely absorbed and anyone who is disappointed with its use can have their money refunded. Sweet's Pharmacy.

The Musical Crusaders at Work

Judging by the letters being received, countless thousands of Canadians and dwellers in the United States tune in every Sunday afternoon to hear their descriptive program based on the Empire of Australia's round the world cruises. The above illustration shows the Crusaders at work under the leadership of Alfred Heather. They are in the newly fitted out radio studios CPBY at the Royal York Hotel, Toronto. These studios are among the finest in North America being equipped with the very latest devices developed for perfect broadcasting. There are two of these studios in the Royal York and from them, week by week, programs are broadcast throughout the length and breadth of Canada over the Canadian Pacific Railway Company's telegraph wires and chain of broadcasting stations.

Something for Conference

Since the Imperial Conference most do something, having failed so far to accomplish anything, it might do worse than take the hint dropped by the Saskatoon Star-Phoenix and discuss the deportation laws of the Dominion, especially Canada. It is hardly necessary to say that this suggestion is precipitated by the plight of three Ontario women recently ticketed for deportation on medical grounds. Two of them were actually deported. The deportation of the third was halted by the institution of habeas corpus proceedings by the woman's parents and there, it is hoped, the Ontario Government's organ of what is little better than kidnapping will stop for the present. The anomalies of immigration are numerous and it would seem as if some inquiry not only into the law but into the manner in which it is administered would be quite in order. While the suggestion that the Conference discuss the deportation laws is not ungrounded, it will do us no harm to take stock of our own laws with a view to a possible setting in order of our own house in this respect. That more people are deported every year than are refused admission at the ports of entry is a startling statement, but the Dominion Bureau of Statistics is the authority for it. Last year only 390 immigrants were refused admission to Canada. The number deported was 1,084, of whom 659 were deported on medical grounds, 444 as public charges, 441 criminals and 235 were persons accompanying deportees. The averages works out at about 38 deportations a week. That more were deported for medical reasons than for any other will be noted.

The Immigration Act sets out the classes of people who may be refused admission. These include feeble-minded persons, anarchists, illiterates over 15 years of age, sufferers from contagious diseases and anyone likely to become a public charge. No one expects the immigration inspectors to detect an anarchist nor infallibly to forecast whether an immigrant is likely to become a public charge but the deportation of 659 seems an unduly large number to slip past the medical officers even after making all allowance for the human fallibility of doctors.

The Act provides, however, that an immigrant may be deported at any time—another instance in which the alien-immigrant has an advantage over the natural-born citizen. Witness the case of Ellen Naylor, ticketed for deportation after being 18 years in the Dominion, and the other two recent instances of women imported from Ontario to England. Their citizenship stood them in no stead at all; had they been naturalized aliens the law could not have reached them. It is quite improbable that the drafters of the Act had any intention of discriminating against British subjects but there it is. If a British subject has not the same status all over the Empire it is a strange anomaly indeed. If this legal freak can be cured, there will be need for immigration inspectors to be a little more watchful but there will be less of more cases of Ellen Naylor.

Helium Gas From Alberta

The disastrous wreck of the airship R-101 has reopened the question of whether there is or is not a supply of helium for aerial navigation purposes available within the Empire and once again the Turner Valley comes into the scientific spotlight. The question has been discussed before, of course, when the possibility of such a source of helium supply being available was a somewhat abstract proposition and a few years ago Professor McLennan of Toronto conducted a series of ex-

periments, the sum result of which was that while helium could be extracted from Alberta gas at a cost of \$1000 per thousand feet there was "not enough gas left in the field to float one Zeppelin." But today there is such a superabundance of gas that by far the greatest problem is what to do with the surplus and the same professor has returned with the statement that valuable quantities of helium are dissipated along with the combustible gas now being burnt in Calgary furnaces. If it can be extracted, it appears, Calgary and other gas users will be none the worse off, since the very quality that makes helium desirable for airship use is that it is non-inflammable, and the occurrence of another holocaust such as that which cost 48 lives in the wreck of the R-101 will be prevented. Government investigators have stated that the cost of extracting helium gas would make it commercially unfeasible. But that opinion appears to have been based on the report of Professor McLennan's experiments some several years old. In the light of changed conditions and Professor McLennan's revised statement new experimentation appears to be justified.

Britain and Disarmament

Once again the British Government has displayed the sweetest of sweet reasonableness in regard to the matter, albeit one wonders whether unlimited willingness to disarm international suspicion and to concur in everything that anyone else asks is really the part of wisdom. A departure from the rigidities of the technical and of the arithmeticians is hinted in the news from Geneva on the closely related subject of Franco-Italian naval ratios. It will be recalled how at the London naval conference serious difficulties were created by the fact that Great Britain had to have a fleet precisely equal to that of France and Italy, and France had to have a fleet superior to that of Italy by just that many

tons, and how Italy in turn would not go below France by a single ton. Since then the probability has emerged in the course of discussions between France and Italy that the latter might consent to something less than parity and that the former might come down a bit on her irreducible margin. We now have the hint from Geneva that Great Britain might accept something less than the sum of French and Italian naval strength, provided the departure from this double-standard was "within reasonable limits."

The speed with which the Preparatory Disarmament Commission at Geneva has got down to work reflects its sensitiveness to criticism of its delays. The decisions in the present session promise a grateful departure from the fine-spin technicalities that have hitherto worked for deadlock. Such a step is the agreement to limit the personnel of the world's navies as a safeguard against camouflaging army strength as naval. Both our old friends and globals and the categories were once more before the spotlight. Should the respective navies be allowed their maximum number of effectives in a lump, to distribute as they please, or must the numbers within each class of naval service be also fixed? Here it turned out that the shoe was on the other foot. France, which in the matter of ships has been dead set for limitation globally, now discovers that in the matter of personnel limitation must be by categories. Otherwise some unnamed naval Power, by training a disproportionately large number of officers, might gain on the sea when the last came the same advantage which many Frenchmen think Germany will derive on land from her present professional army small in numbers but magnificently trained. However, a compromise will be worked out on the basis of personnel limitation in the lump, provided the nations make public annually the totals of their naval officers and men.

A Few Short Cuts To 3 Meals a Day

BY EDWINA NOLAN

Director of Home Service, General Electric Refrigerator Department

THREE meals a day! A thousand meals a year! It's a never-ending problem for housewife and mother. But there are innumerable short cuts in solving the problem.

Every housewife knows that it is the actual cooking of meals which is most confining. She can double up on this time-consuming process by planning menus for two or three days ahead and by cooking in quantities sufficient to form the foundation for two or more meals if she has proper facilities for keeping food. Here is how the plan works out:

(1) Enough potatoes are boiled to mash for dinner and to serve creamed or au gratin the next day.

(2) Enough spinach is cooked so that there can be a cream of spinach soup for another meal and spinach and egg au gratin for supper or luncheon.

(3) A whole ham is boiled, cooled and put in the electric refrigerator and at dinner time it is given the final half-hour roasting and served hot; the remainder being made into ham and macaroni casserole for another dinner, and devilled ham sandwiches for luncheon.

(4) Twice as many apples as will be needed to serve with roast ham are baked. Thoroughly chilled baked apples with a custard sauce make a delicious dessert, or they may be reheated and served with cream.

(5) Soft custards are made in larger quantities because they have many uses and they keep well in tightly-covered jars.

With such preparations made and the food tucked safely away in the electric refrigerator, a starting proper preservation, most of the work is done for the day. In as short a time as 20 or 30 minutes it is possible to have dinner on the table.

W. D. Upshaw Now Lauds New Sargon

Few men in America are known to more people from coast to coast than William D. Upshaw, former Congressman from the Fifth (Atlantic) District of Georgia. During his eight years in Washington he attained national prominence. A well known national magazine described him as "the most amazing man in Congress."

Obeys a grateful impulse because of the great physical blessing received through the use of Sargon. Mr. Upshaw writes that he is simply doing unto others as he would have them do unto him in making the following voluntary statement:

"My first experience with this remarkable invigorator came in the summer of 1928, when Sargon was brand new. I was suffering from nervous debility and an alarming physical depletion as the result of overwork on the lecture platform, and really feared I would not have strength enough to get me through the political campaign of July and August. Unbelievable as it may seem, two bottles taken with the Sargon Pills simply made me over. After the most hectic speaking campaign through which I ever passed, I came out actually feeling far stronger than when I began."

"Later, rushing away on another busy speaking tour, covering several States, I did not persevere in daily use of the medicine until my system was thoroughly cleaned, with the result that twice since then I found myself again suffering from general debility, constipation and disallow, and each time the Sargon combination has cleared me up and left me feeling tip-top."

"Living now in the aftermath of those refreshing experiences, I am moved by common gratitude to heartily commend this wholesome and effective medicine to everybody whose run down condition calls for complete restoration."

Sargon may be obtained in Lacombe from the McDermond Drug Co. Ltd.

What's Doing Around Joffre

Jack Boomer and Peggy Ross, a very popular young couple of the district were married in Red Deer on Wednesday afternoon. A wedding supper and party was held for them at the bride's home on Wednesday evening. A crowd of the young people of the community also turned out and gave them a chivari. They have the best wishes of the entire district for a long and happy married life.

Sawyers have returned from their hunting trip and were fortunate in bringing home two moose.

Miss Libby Armstrong of Olds spent the Thanksgiving holidays at Charlie Millers.

The Rev. Riggs of Blackhead has been visiting this district with a temperance petition.

Mr. and Mrs. McMurtre, and infant daughter left on Thursday for a trip to Minnesota.

Mrs. Allan and son John left on Sunday to spend the winter in California.

Wrigley Puts Up Trophies

At a recent meeting of the Alberta section of the Canadian Amateur Swimming Association held in this city Walter S. Dodman, representative of the W. Wrigley Junior Company, offered a presentation of two handsome cups to Alberta for the mile for men and women, to be competed for annually; also miniature cups for the winners and gold, silver and bronze medals for the first, second and third contestants.

Mr. Dodman explained to the meeting that his company intended to sponsor amateur instead of professional swimming. The intention is in the near future to make this mile race a Dominion event. These trophies were competed for in Manitoba last summer and Alberta is the second province to be honored. This race no doubt, will create great interest in Alberta, and Gull Lake has been suggested as a suitable place, but nothing definite will be settled until the annual meeting of the Alberta section to be held in Calgary next April. It is expected that this will greatly boost swimming activities in the province.

Britain Sticks to Old Theory

The fetish of free trade, which has been one of the main causes of Britain's economic impasse, still holds sway over a large proportion of business economists in the old land. During the period of post-bellum deflation, when the grim spectre of unemployment became an issue to be faced, the government turned to the doctrine, this was stated to be only a temporary measure, but today millions have been spent and the end is as far off as ever, while a mendicant class has been created, many of whom would not work if work were offered, especially among the younger generation, who have grown up under the malign influence of "something for nothing."

The present Labor administration absolutely refuses to consider protection of home industries, while the proposal to put a small tax on any form of foodstuffs, with the Rt. Hon. Philip Snowden, Chancellor of the Exchequer, unalterably opposed to any such tax, would, if pushed to an issue, wreck the government.

The farming industry in Britain is being ruined by unfair competition with grain exported from other countries, on which a bounty is paid by their home governments, or, as in the case of Russia with grain, grown practically by serfs and thrown on the market at a price much below the cost of production. This is nothing to the free-traders. The price of the loaf must not be increased to the working man. They forget that with industries at a standstill and unemployment steadily increasing, cheap bread will mean nothing, for there will be no money with which to buy it.

Lord Jellicoe suggests that emigration of the surplus population of Great Britain to the Dominions is the solution of Britain's troubles. The Canadian unemployment situation makes the suggestion impracticable so far as Canada is concerned. Our wheat farmers are faced by the same unfair competition as their British brethren. Canadians are in a fair way to adopt measures to buy up their home industries and to create a home market. Will the Motherland be so obsessed with an outworn idea that she will refuse to take the road lying clear before her?

I.O.D.E. NOTES

The monthly meeting of Lord Lacombe Chapter, I.O.D.E., was held at the home of Mrs. A. Chiswell with Mrs. Pratt (Regent) presiding. At this meeting it was decided to hold our annual tea for the Wood's Christian Home, at the home of Mrs. S. Pillman, the latter part of November, this to take the form of a shower as well. Any fruits, jam or canned vegetables, also any furnishing for the large new dormitory of 50 beds will be most gratefully received. The winner of the quilt given to the Chapter, by Mrs. Pillman was Mrs. C. Brathwaite with ticket 97. Our December meeting is to be held at the home of Mrs. F. H. Reed.

W.M.S. MEETING

Miss Laycock, a United Church Mission worker at Smoky Lake, Alta., was a delightfully charming speaker at a combined meeting of the Women's Missionary Society and Young Women's Auxiliary, held at the home of Mrs. W. C. Sweet, on Tuesday evening, Nov. 18th.

Directing her remarks around the customs and beliefs of the New Canadians, the speaker emphasized the fact that these people are not only here to receive but are here to give, and brought her hearers in closer touch with the work with many personal interest stories.

A duet by Mrs. J. McDonald and Miss E. Sims, and a solo by Miss Sims were much appreciated. A delicious luncheon was served by the senior C.G.I.T. group and a pleasant social hour spent.

IS PREMIER BROWNLEE ENTERING DENNETT CABINET?
A telegram from Ottawa states that there is a persistent rumor that Premier Brownlee of Alberta will be taken into the Conservative cabinet in the near future.

NOTICE

The Annual General Meeting of the Lacombe Agricultural Society, will be held in the Town Hall, Lacombe, on Thursday, Dec. 4th, 3 o'clock p.m. Please attend.
D. F. Chisholm, Secretary.

Do You Know?

97-piece Dinner Set at 12.50 is a bargain for some. See it at Lacombe Furniture Store.

Our old friend J. C. Nicholson, old time R.M.W.M. Police officer here, visited friends in Lacombe this week.

Mr. W. Bacon and A. Campbell, motored down from Vinny and Edmonton and spent Thanksgiving with Mr. and Mrs. J. L. Craig.

A young son of Mr. Ostenshop had the misfortune to lose two fingers of his left hand this week while grinding grain.

We have very special prices on Linoleum and Congoleum Rugs—get them laid before cold weather at Lacombe Furniture Store.

Mr. and Mrs. Roy Flegal, of Lacombe, spent Thanksgiving at the home of Mr. and Mrs. Ed Barnett, Stettler.

We have a large stock, in fact we are over-stocked on all wool Blankets and Elder Down quilts and they must go if price will move them. Come in and let us talk it over: Lacombe Furniture Store.

Mr. Wilson, of the City Meat Market was accidentally shot in the leg with a 22 rifle last week. Although the bullet made a painful wound, it was not of a very serious nature, as the bullet did not strike a bone.

The Alberta Hotel Association has notified all Alberta Hotelmen to refuse to serve beer to any unemployed who are or will require public assistance during the winter.

A demonstration of Domestic Shortening will be held at S. M. Murray's Store on Monday, November 24th. Everybody welcome. Tea will be served. You are invited.

There will be a dance at Spruceville Hall on Friday evening, Nov. 28th. Bluebird Orchestra.

Have you thought of a Photo for your gift this Christmas. We have a special cabinet size at \$6.00 per doz., and many other beautiful lines. Cameron Studios, Lacombe and Ponoka.

The Annual Canvass for the Canadian Bible Society will be held on Wednesday, Nov. 20th, in the afternoon. It will be conducted by a Committee selected by the Executive of the local branch. This Society serves the whole of Canada, and does a work for the country that is unequalled. It is therefore worthy of the support of every citizen.

Suggestions for solving Your Christmas Problem: Picture Framing, Oil and Pastel Paintings. Enlargements Colored from your own films, Copies from old Photos and Master Photo Enlarging, together with service and quality. Cameron Studios, Lacombe and Ponoka.

ALBERTA POLICE PROBE

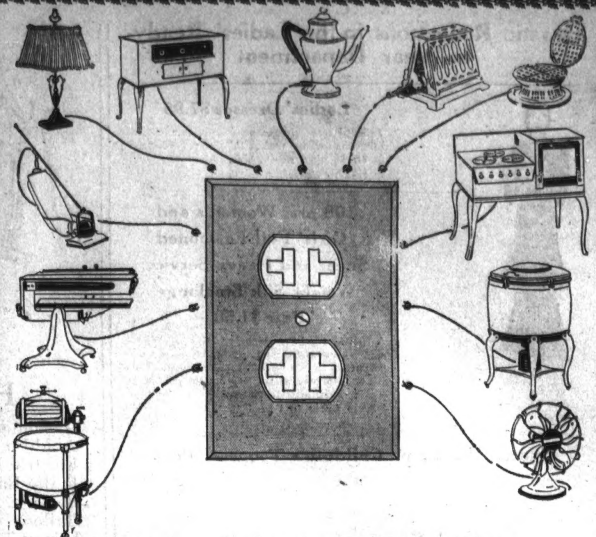

MYSTERY OF FARM DEATH
Breton, Alta., Nov. 20—Reviewing the evidence which failed to reveal any new details in connection with the death of Julius Johansson, reclusive homesteader of this district, a coroner's jury Tuesday afternoon returned a verdict finding that he came to his death at the hands of a person or persons unknown. The case is giving the Alberta Provincial Police one of the stiffest puzzles in the history of the force.

The Johansson home is 12 miles from Breton, which is 56 miles West of Leduc. Johansson, who lived alone in a little farmstead placed beneath tall timbers and at the edge of a clearing, was found Sunday, November 9, sprawled against a goose fence and with the back of his head smashed as a result of a violent blow which crushed his skull and broke his neck at the seventh vertebra. A grab handle, with a thickness of a baseball bat and 42 inches in length was found 25 feet away from the body and it carried a blood stain and a depression three inches long at the point where it had been, apparently swung at Johansson's head.

POPULAR LADY 'SHOWERED'

On Wednesday afternoon the home of Mr. and Mrs. Fred Stewart was the scene of pretty festivities, when friends of Mrs. Anne Fleming gathered in large numbers to shower her with gifts and good wishes. After the friends had assembled, a mock wedding which was received with great mirth, was performed by the ladies of Pairville. Mrs. D. D. McMullen, as the bride, looked very charming in a white dress with lace bridal veil. Miss Mary Ogilvie acted as flower girl. The groom's part was very ably taken by Mrs. Reister. Miss Dorothy Ogilvie attended the bride, while Mrs. Byron Batcher acted as best man, and true to traditions of groomsman, had to search for the ring. The ceremony was performed by Mrs. Norman Whitelaw, who 'tied the knot' very efficiently. At the close of the ceremony, Miss Mary Ogilvie wheeled in a basket of gifts, which were opened amid much merriment by the bride-to-be.

A lovely luncheon was served and a very pleasant social hour spent.

GIFTS YOU'LL LIKE TO GIVE - AND GET

The trend of Christmas giving is toward the more useful and lasting articles. Nothing is more appropriate than electrical appliances. Never a day goes by that they are not used again and again. Throughout the year they call to mind the giver's thoughtfulness.

Call the Calgary Power representative in your town, he will tell you of the wide choice of appliances and will explain the Calgary Power Company merchandising plan which enables you to buy on liberal terms.

COLLEGE HEIGHTS NEWS NOTES

Mr. and Mrs. P. O. Moline and daughter of Telford visited their son and two daughters.

Pastor S. A. Ruskier, president of the Western Canadian union conference of Seventh-day Adventists, who has been attending the fall council of Seventh-day Adventists at Omaha, Nebraska, returned this week. Pastor Ruskier was elected president of the South American division, but he has not decided whether to accept the position or not.

Mr. Arthur Backwater, of Edmonton spent Sunday with his parents.

Mr. Manville Gillis returned from Peace River this week.

Pastor S. A. Ruskier, gave a stereoscopic lecture in the college auditorium on Monday, on the subjects of Thanksgiving and Armistice.

The cold weather has delayed the work on the College buildings, but the teachers were glad to hold classes in their new classrooms for the

first time, November 12. Pastor D. C. Newbold spent the week end in Edmonton.

JOHN BARRYMORE HAS GREATEST ROLE IN FIRST TALKIE FILM

America's most distinguished star, John Barrymore, whose voice has charmed two continents on the stage, speaks from the screen for the first time as the star of "General Crack", Warner Bros. Vitaphone special scheduled to open at the Avalon Theatre on Thursday this week.

In the title role of "General Crack", adapted by Walter Anthony from the George Preedy novel, Barrymore enacts the son of a gypsy princess and a nobleman, who becomes one of the greatest military leaders of his time. The role of General Crack, the mad Prince Christian—is a constant conflict between inherited traits. The story is laid in middle Europe during the early part of the eighteenth century. In addition to making his initial bow as General Crack, Mr. Barrymore also plays the father of his character in the prologue, and enacts his father's ghost in later scenes. This is one of the greatest pictures of the day and you should not miss

A CALIFORNIA VISITOR
J. E. Richardson, City Ticket Agent of the Southern Pacific Railway Co., Hollywood, California, and Mrs. Richardson are visitors in Lacombe this week. Mrs. Richardson is a sister of C. R. Hembury, of Lacombe. Mr. Richardson, who is a prominent member of the Kiwanis Club of Hollywood is enroute to the Kiwanis Convention at Chicago.

This Simplicity

means
money
to YOU!

**John
Deere
Farm
Tractor**

Simplicity in the tractor you buy is mighty important to you.

This quality means easier operation, fewer adjustments to make, fewer repairs to buy, less trouble, and, what's even more important, it means longer life.

In the illustration above, you see the remarkable simplicity of the powerful, light-weight John Deere Tractor. It shows you at a glance why the John Deere is known as the tractor of fewer, but sturdier, parts.

A strong, one-piece frame encloses the entire working mechanism.

When you're in town come in and look it over.

ism, protecting all parts from dust or sand, and supplies a reservoir for automatic lubrication so that all working parts operate in a constant bath of clean oil.

From engine to drawbar, the John Deere is a simple, but powerful giant, with no unnecessary parts to add weight and cause loss of power.

When you're ready to buy a tractor, don't overlook the fact that the John Deere is actually hundreds of parts simpler than other tractors of similar power rating.

Drastic Reductions in the Ladies' Ready-to-Wear Department

A. M. CAMPBELL'S

Lacombe High Entertainment

Lacombe High School presented a concert on Friday, November 14th, in the school assembly hall under the direction of Miss E. Young and Miss T. Smith. The program was much enjoyed by all. Ye Thirteen Old Combs gave a pep song beginning to the evening's entertainment. Next followed a piano duet by Muriel Puffer and Dorothy Sweet. This number was much enjoyed. Miss Betty Hornby danced the Sailor's Hornpipe, receiving an encore. Tap dancing by Margaret Masters, Miss Dwan, Eleanor Belcher, Jean Belcher, Viola Ellis, Helen Sage, Jean Hunter and Madge Adenbach.

Mr. C. Nelson trained the girls, and their performance merited the approval shown by the encore. A one act play, "The Londoners' Air", starred Edward McMullen, Hazel McDermott, Margaret Aldwinckle and Bob McCaugherty, directed by Miss E. Young. The group chosen was the most colorful of the numbers. Dorothy Sweet was the yagabond, and sang "The Vagabond" very sweetly. Other gypsies were: Muriel Puffer, Elizabeth Layton, Jean Minkler, Jessie Hay, Elsie Burns, Margaret Masters, Leila Lewis, Catherine Newton, Edith Moore, Nellie Crawford, Ethel Boys, Marjorie Woods, Maxine Fitzpatrick, Eleanor Scorgie, Francis Rathle. Miss Catherine Newton recited "The Highwayman" very effectively. Ye Thirteen Honest Combs were: Big Chief Ebonodese, Boyd Carruthers; lesser Rastis: John Henry, Bob. Layton, George Darroch, August Burns, Henry Magilton, Edgar Todd, Stanley Todd, Art Kreiss, Fred Stewart, Murray Malcom, Art Lidskog and Gordon Street. This was ably managed by Miss Smith. Thanks is extended to all who assisted, and who came and gave their support. The Student's Union, are especially grateful to: Mr. Nelson, and Mrs. Baker, for their very generous help in coaching the girl's tap dancing; to the School Board for the platform; to the Board of Trade for the Floor Lights; Mr. Hearsey for his assistance; to Mr. Haplin for his help; Mr. Dwan for laborious work very genially and generously offered; to the Star Orchestra for in-between numbers; Jim McDonald for the wising. The Students' Union further wishes to acknowledge its indebtedness to the efforts of Miss Smith, and Miss Young. Miss E. Jago, thanked the audience, and all those who contributed or who took part.

The "Across Canada" lantern slides were shown to a group of 300 people by Mr. C. Duskworth. This

part of the evening's program was due to the courtesy of The Canadian Pacific Railway Company, by Mr. Jackson, their local agent. There were 190 slides shown. There was no charge for these. Similar programs will be sponsored by Mr. Duskworth later. The public is cordially invited to these programs. Announcements will be made through the press, and through the school children.

One of the high spots in sport life of the Lacombe High happened Saturday morning in close game play between the Ponoka High. The patients efforts of Mr. McCormick crystallized in a perfect touchdown made by Wheeler Wilkes in the last few minutes of play. (Just 30 seconds to go when he crossed the line). The teams were very evenly matched, and the play kept even throughout. Lacombe made the first touch (Boyd Carruthers) due to some fast work around the end by Bill McKenzie. The score was later tied by Ponoka, and their safety kick made the score 7-6 in Ponoka's favour till the last few minutes of play. The air was tense, Bob McCaugherty, their alert quarter, was about to give the ball; perhaps the opponents thought Bill McKenzie would take it as he had shown the most speed; but not Wheeler (squeak) had it and was away. He passed one, another man is running for him but missed his tackle, Wheeler is going strong and nearing the line; Ponoka are bent on getting him and they play well; there are three men after him now and it looks as if chances are nil, but Squeak dodges one, the other jumps for his feet, but he too has jumped him; Now there is one opponent between Squeak and victory, the time is almost gone—Wheeler's face is white with fatigue, he has had 60 minutes of rugby, the Ponoka man outweighs him, he appears to be lost, but—Squeak dodges, and makes a fine apart and crosses the line. Well Done! Very well done indeed! The modest led ran off the field to escape the embarrassing congratulation. It was a great game. It would have been just as good a game if Ponoka had made the touch; (if the touch had been just as good). But, there were few plays so perfect as the one witnessed this morning. There were few who were privileged to see the play, but the boys gave Wheeler a rousing cheer in the dressing rooms later. Bob McCaugherty led in a rousing cheer for Bill McKenzie. Bill did wonderful work, but received a painful bruise over his heart, which necessitated his being out in the third period. If Bill does not wear the goggles of the final winning touch, certainly he and all the other boys admirably stood by the flag. Lacombe line up; Bob McCaugherty,

Quarter; Boyd Carruthers, (captain); Bill McKenzie, Gordon Sweet, Edgar Todd, August Burns, Bill Scott, Walter Dwan, John Henry, Edward McMullen, Gordon Craigie, Murray McLeod.

Thanks is repeated to Mr. McCormick who gave unsparingly of his time to the boys; and to Mr. Grover, who began the game here some two years ago. A copy of this issue of The Western Globe is being mailed to Mr. Grover. The boys have caught the fine spirit of their coach: loyal sports, modest winners, and good losers.

Remember the Baptist Ladies' Aid are holding their bazaar in the Rest Room, Saturday afternoon, Nov. 22. Tea will be served during the afternoon.
